

# Metrics for Diagnostic Technique Qualification & Validation

## Improve Diagnostic Algorithms

### The Problem:

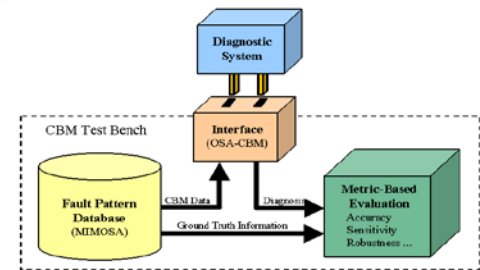

Verification of machinery diagnostic system performance is needed to ensure selection of the most appropriate system for a specific application.

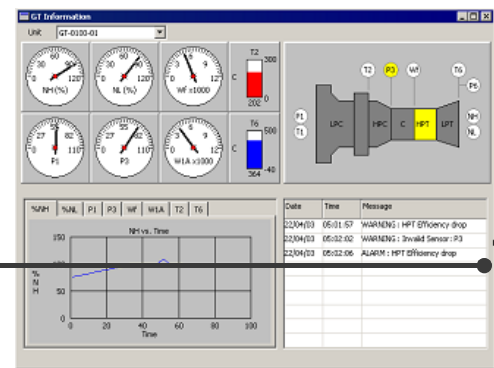

### The Solution:

The CBM Metrics Test Bench provides a virtual environment for evaluating diagnostic systems on specific machinery applications.

- Available to end users for qualification and validation of diagnostic tools
- CBM Metrics Test Bench and databases reside on a secure Web server
- Submit diagnostic algorithms for assessment via the Internet
- Application specific analysis provides individual cost benefit assessments
- Available to developers as a tool for improving diagnostic algorithms

Can I trust this diagnosis?
